# LETTER TO OUR SHAREHOLDERS

---

Dr. Markus Wesnitzer, Chairman – Philippe Brändle, CEO

**Züblin achieved a good result in the first half of 2024/25. Lettings helped the vacancy rate to decline to 6.6% and rental income to grow by 2.5%. Group net profit was CHF 2.4 million, significantly above the previous year's result of CHF 0.5 million. The market value of the real estate portfolio was stable at CHF 225.9 million as at 30 September 2024.**

## Income boosted by successful lettings

The Swiss real estate market stabilised in the reporting period under the influence of declining inflation and lower interest rates. Against this backdrop, Züblin achieved a solid result of CHF 2.4 million in the first half of 2024/25 (previous year: CHF 0.5 million). Revaluations of CHF 0.5 million (previous year: CHF –2.2 million) contributed significantly to the good result.

New leases signed from the second quarter of the financial year led rental income to rise by 2.5% to CHF 4.6 million. However, operating income from letting fell slightly from CHF 4.3 million in the previous year to CHF 4.1 million due to the precautionary write-off of an outstanding rent receivable.

Both personnel and administrative expenses of CHF 1.1 million and financial expenses of CHF 0.8 million remained steady. Earnings per share rose markedly from CHF 0.15 in the previous year to CHF 0.73.

## Stable portfolio – Vacancy rate at 6.6%

The key data for the property portfolio improved significantly in the first six months of the financial year thanks to success in lettings, with annualized rental income growing from CHF 9.2 million to CHF 9.6 million, while the portfolio's vacancy rate fell from 9.3% to 6.6%.

As at the valuation date of 30 September 2024, the value of the portfolio increased by 0.3% to CHF 225.9 million, based on an unchanged, average, weighted nominal discount rate of 4.35%. The rise in market value reflects the quality of the portfolio and the company's letting successes.

The signing of a 10-year lease for the entire first floor (around 1 800m<sup>2</sup>) at Morgenstrasse 136 in Bern represents a particular letting achievement. An innovative MedTech company has taken up research, development and sales operations on the premises since 1 July 2024. This letting reduced the vacancy rate in the property from 47.5% to 27.9%.

## Solid balance sheet – LTV ratio at 31.6%

Supported by a solid equity ratio of 58.9% (31 March 2024: 59.5%), Züblin's total assets stood at CHF 230.5 million at 30 September 2024. Net asset value (NAV) per share was CHF 40.93, down slightly on CHF 41.19 as at 31 March 2024 following the distribution of CHF 1.00 to shareholders in June 2024.

The real estate portfolio was valued at CHF 225.9 million at the end of the first half of the 2024/25 financial year. Five of our six investment properties are still financed by a CHF 100 million framework facility that will expire in 2029. Utilization of this facility was unchanged at CHF 63.0 million at the balance sheet date. Accordingly, the loan-to-value ratio (LTV) is 31.6% (31 March 2024: 31.0%).

## Outlook

The high quality of our property portfolio has proven to be particularly valuable in a market undergoing adjustments and structural changes. Züblin has a solid operational base from which to continue the positive development of the portfolio in the current financial year.

Philippe Brändle took over as Züblin's new CEO in mid-September. In addition to broad-based experience and local market knowledge, he also brings a strong network to the role. The Board of Directors is looking forward to opening a new chapter in the company's history together with the new CEO.

Züblin continues to focus on developing the quality and sustainability of the portfolio and actively reducing vacancies. We aim both to maintain the value of our portfolio through targeted measures and create added value for all Züblin stakeholders by making new investments in properties that are aligned with the company's strategy.

Dr. Markus Wesnitzer  
Chairman

Philippe Brändle  
CEO

# PORTFOLIO

Reflecting good operating performance, the key figures for the first half of 2024/25 were generally positive. Letting activities and contract extensions with existing tenants led to a decline in the vacancy rate to 6.6% at 30 September 2024 and a 2.5% increase in rental income compared with the same period in the previous year.

## Active Asset Management

The letting successes already communicated at the end of the last financial year became effective in the first half of 2024/25. As expected, this was reflected in a significant improvement in the key figures as at 30 September 2024. Rental income rose by 2.5% year-on-year to CHF 4.6 million and increased from CHF 9.2 million to CHF 9.6 million on an annualized basis. At the same time, the vacancy rate in the portfolio fell from 9.3% to 6.6%.

The completion of investments in properties and higher rental income resulted in an increase in the value of the portfolio at the valuation date, despite the ongoing subdued market situation. At CHF 225.9 million, the valuation was 0.3% or CHF 0.8 million higher than at the last valuation date of 31 March 2024. The average weighted discount rate remained unchanged at 4.35%.

## Successful Asset Management

Decrease in vacancy rate from 9.3% to 6.6%

## Letting Activities

The successful letting at **Morgenstrasse 136 in Bern-Bümpliz** in the last quarter of the 2023/24 financial year was an important milestone. A new tenant was secured for the entire 2nd floor from July 2024: an innovative medical technology company, which will develop, manufacture and market robotic systems for spinal surgery at the site. The tenant fit-out implemented in the first half of 2024 was completed on time for the tenant to move in at the start of the lease. The lease for 1,781m<sup>2</sup> of letttable space has a term of 10 years. The WALT (weighted average lease term) of the property was 6.0 years as at the reporting date. The vacancy rate fell from 47.5% to 27.9%.

We are confident that this letting will have a positive impact on our ongoing marketing efforts with regard to the location and quality of the space on offer in the property.

### New tenant in the Bern property

A space for pioneering developments in the field of robotic surgery

A modern, modular space concept for a target group of smaller companies as tenants was planned and implemented at **Gewerbestrasse 12a in Egg** in the 2023/24 financial year. After the balance sheet date on 31 March 2024, a 10-year rental agreement was concluded with a medical practice for part of the space (for 171m<sup>2</sup>) with effect from 1 September 2024. In addition, a new lease was signed for one of the smaller office spaces with effect from 1 September 2024.

Due to a change of tenant in the **Zurich-Oerlikon located property at Hofwiesenstrasse 370**, the vacancy rate is currently 10.3%. Time until re-letting is being used to renovate the rental space. Marketing efforts proved successful and the space could be re-let as of March 2025.

## Major Tenants

Tenant	Sector	30.9.2024	31.3.2024
Baker & McKenzie, Zurich	Law firm	31.9%	32.4%
BR Bauhandel AG, Bern	Distribution	4.2%	4.3%
Testo Industrial Services AG, Egg	Quality control	4.1%	4.2%
LEM Surgical AG, Bern	Medical technology	3.2%	0.0%
Notariat Oerlikon, Zurich	Notary	2.9%	3.0%
<b>Total</b>		<b>46.3%</b>	<b>43.9%</b>

Base: Annualized rental income

Our major tenants are well-known companies and administrative bodies of the City of Zurich. These tenants account for just under half of our rental income.

## Rental Contract Analysis

The chart illustrates the timeline of expiring leases based on the effective rental income (contract rent) and on the assumption that expiring leases will be extended or renewed at current market rents (market rent).

## Strategic Alignment

Züblin continues to concentrate on selective investments in office properties in the strategically defined core markets in German-speaking Europe, with an emphasis on our home market of Switzerland. However, we will only make acquisitions if they meet the investment criteria we have defined, complement the portfolio sustainably and add value in the long term.

## Investment Criteria

Type of use	Office (Core/Core+)
Location	Economic centres including agglomerations in German-speaking Switzerland, second priority German-speaking Europe
Property quality	Good to very good, with high occupancy
Investment size	CHF 5 million to CHF 50 million
Gross initial yield	3.0% - 5.0%
Equity	40 - 50 %

## 2. BASIS OF PREPARATION AND OTHER SIGNIFICANT ACCOUNTING POLICIES

---

### 2.1 Significant accounting policies

The consolidated semi-annual financial statements of the Züblin Group have been prepared in accordance with IAS 34 Interim «Financial Reporting» and with Art. 17 of the SIX Swiss Exchange Directive on Financial Reporting. The consolidated semi-annual financial statements do not contain all of the information and notes that are required at the financial year-end and should therefore be read along with the consolidated annual financial statements for the Züblin Group for the financial year ending 31 March 2024.

The presented consolidated semi-annual financial statements for the Züblin Group as of 30 September 2024 were approved by the Board of Directors on 7 November 2024.

### 2.2 Amendments to accounting principles

The same accounting and valuation principles as for the consolidated annual financial statements as of 31 March 2024 apply to the presented consolidated semi-annual financial statements.

For the current financial year 2024/25, no new accounting standards relevant to Züblin came into force, except those already mentioned in the annual financial statements as of 31 March 2024.

## 2.3 Critical accounting estimates and judgements

The preparation of the consolidated semi-annual financial statements requires the use of estimates and judgements by the Company's management. These estimates and judgements affect the way in which assets, liabilities, income and expenses are reported and their valuation, as well as the disclosure of contingent liabilities and other disclosures in the semi-annual financial statements. The actual outcome may differ from estimates and assumptions that have been used. In the event that they subsequently differ from the actual outcome, the initial estimates and assumptions are revised to reflect the changed circumstances during the financial year in which these changes occur. In the Züblin Group the main accounting estimates and judgements relate to the valuation of investment property and income taxes. The disclosures of critical accounting estimates and judgements as presented in the annual consolidated financial statements are unchanged.

There were no changes in the valuation criteria in connection with IFRS 13 during the reporting period and there were no reclassifications within this category. The investment properties recognized at fair value as of 30 September 2024 qualify unchanged to 31 March 2024 as level 3 fair value inputs.

## 2.4 Consolidation principles

### 2.4.1 Scope of consolidation

There were no changes in the scope of consolidation in the first half year 2024/25.

### 2.4.2 Translation of foreign currencies

As at 31 March 2024, all foreign subsidiaries currently have no operating activities. The functional currency is the Swiss franc.

**Balance sheet rate CHF/EUR as of 30.09.24:** CHF 0.9448 (31.03.24: CHF 0.9765)

**Average rate CHF/EUR as of 30.09.24:** CHF 0.9623 (31.03.24: CHF 0.9607)

## 3. DETAILED INFORMATION ON STATEMENT OF PROFIT AND LOSS AND OCI ITEMS

### 3.1 Rental income

in CHF thousands	1.4.2024 to 30.9.2024	1.4.2023 to 30.9.2023
Potential rental income	5 078	4 960
Vacancy	-392	-441
Rent reductions	-56	-3
<b>Total Rental income</b>	<b>4 630</b>	<b>4 516</b>

Rental income increased by 2.5% (TCHF 114) compared to the prior year period. This increase is mainly due to index increases, which are reflected in the increased potential rental income, as well as to lettings, which led to a reduction in vacancy.

### 3.2 Real estate expenses

in CHF thousands	1.4.2024 to 30.9.2024	1.4.2023 to 30.9.2023
Service charges	-30	-40
<i>non-recoverable</i>	-30	-61
<i>Management fee</i>	0	21
Insurance	-35	-31
Bad debts	-257	0
Property taxes	-13	-13
Marketing costs	-5	-6
External management fees	-7	-3
Legal fees	-10	-3
Other property-related expenses	-23	-2
<b>Total real estate expenses</b>	<b>-381</b>	<b>-98</b>

Real estate expenses directly attributable to investment properties represent 8.2% (previous year 2.2%) of rental income.

The increase in real estate expenses by TCHF 283 is mainly due to value adjustments on an outstanding receivable and other real estate expenses.

### 3.3 Personnel expenses

in CHF thousands	1.4.2024 to 30.9.2024	1.4.2023 to 30.9.2023
Wages and salaries	-365	-350
Performance-based compensation	0	0
Compensation of the board of directors	-180	-163
Social security contributions	-48	-52
Pension plan expenses	-30	-27
Other personnel expenses	-48	-46
<b>Total personnel expenses</b>	<b>-671</b>	<b>-638</b>

Personnel expenses increased by TCHF 32 or 5% compared to the same period of the previous year. This is mainly the result of personnel changes.

Other personnel expenses include flat expense allowances of employees and members of the Board of Directors. This item also includes the premium for directors' and officers' liability insurance, costs for recruitment as well as expenses for further education and training of existing staff.

### 3.4 Administrative expenses

in CHF thousands	1.4.2024 to 30.9.2024	1.4.2023 to 30.9.2023
Investor relations	-137	-143
Legal and tax advisory	-84	-58
Rent expenses	-44	-47
Bookkeeping and IT	-43	-43
Other taxes	-32	-38
Audit	-33	-27
Depreciation	-17	-25
Valuation	-20	-20
Travel expenses	-8	-4
Project related advisory expenses	-15	0
Other administrative expenses	-32	-32
<b>Total administrative expenses</b>	<b>-465</b>	<b>-437</b>

Administrative expenses increased by TCHF 28 or 6% compared to the prior year period. This increase was mainly due to additional expenses in connection with the implementation of the revised Corporate Law.

### 3.5 Financial expenses and income

in CHF thousands	1.4.2024 to 30.9.2024	1.4.2023 to 30.9.2023
<b>Financial expenses</b>		
Mortgage interest expenses <sup>1</sup>	-780	-771
Other interest expenses <sup>1</sup>	-0	-0
Currency translation adjustments	-8	-10
<b>Total financial expenses</b>	<b>-788</b>	<b>-781</b>
<b>Financial income</b>		
Interest income <sup>2</sup>	1	1
<b>Total financial income</b>	<b>1</b>	<b>1</b>
<b>Net financial expenses</b>	<b>-787</b>	<b>-780</b>

<sup>1</sup> The respective liabilities belong to the category "Financial liabilities at amortized cost"

<sup>2</sup> The assets to which this income relates belong to the category "Financial Assets at amortized cost"

## 4. DETAILED INFORMATION ON STATEMENT OF FINANCIAL POSITION ITEMS

### 4.1 Investment properties

in CHF thousands	1. Halbjahr 2024/25	2023/24
<b>Balance as of beginning</b>	<b>225 140</b>	<b>227 050</b>
Value-enhancing investments	243	1 598
Capitalization / Release of rent free periods <sup>1</sup>	-37	-80
<i>Positive change in market value</i>	514	26
<i>Negative change in market value</i>	0	-3 454
Change in market value	514	-3 428
<b>Balance at the end of reporting period</b>	<b>225 860</b>	<b>225 140</b>

<sup>1</sup> Straight-line recognition/reversal of rent incentives granted to tenants

In the first half of 2024/25, the value of the investment properties increased by TCHF 720 or 0.3%. This was due to changes in market value of TCHF 514 and investments in the amount of TCHF 243. The linear recognition of rent-free periods in the amount of TCHF 37 had a value-decreasing effect.

The weighted average lease term (WALT) decreased from 6.4 years to 6.0 years in the first half-year.

Investment properties are valued twice a year by Jones Lang La Salle AG (JLL). The discounted cash flow (DCF) method is used to determine fair value on the valuation date. Under this method the fair value of a property is determined by the sum of projected future net earnings discounted to the valuation date plus the discounted exit value. A detailed cash flow forecast is produced for the first ten years, with a residual value (exit value) being determined on basis of a perpetual annuity of the exit cash flow for the rest of the term. The projected gross rental income is determined on the basis of existing tenancies and assumptions on reletting at current market rents, with allowance made for the relevant marketing periods and the probability of current leases being renewed. The net rental income is defined as the gross rental income less property-specific costs that cannot be passed on to tenants plus maintenance and any renovation required for new rentals. The discount calculation is carried out separately for each property, taking account of its property-specific risks and opportunities, in line with market conditions and on a risk-adjusted basis.

Züblin is currently invested solely in the asset class office and in the Zurich region. The average capital-weighted nominal discount rate is 4.35% as of 30 September 2024 (31 March 2024: 4.35%), in the range of 3.85% to 5.80% (31 March 2024: 3.85% to 5.80%). The average capital-weighted capitalization rate is 3.10% (31 March 2024: 3.10%), in the range of 2.60% to 4.55% (31 March 2024: 2.60% to 4.55%).

The following tables show a sensitivity analysis of the two parameters discount rate and market rent, which have a significant influence on the valuation of the investment properties.

**Valuation effects in relation to changes in market rents (effects up to ±8% percent):**

Change in market rents by	30.9.2024		31.3.2024

The principles and assumptions applied in the valuation of the investment properties are set out in the [valuation report](#).

A complete list of all investment properties along with all information in accordance with the Directive on Financial Reporting of the SIX Swiss Exchange can be found in the [portfolio section](#). This additional information is an integral part of the notes to the consolidated financial statements.

## 4.2 Equity

### Share capital

There were no changes in capital structure in the first half of the financial year 2024/25. As of 30 September 2024 there were 3 318 027 shares with a nominal value of CHF 22.50. This corresponds to a total share capital of TCHF 74 656.

### Treasury shares

The company holds a total of 2 380 treasury shares as of 30 September 2024. No treasury shares were bought or sold in the first half of 2024/25. The treasury shares are reported as a negative item in equity at acquisition cost. As of 30 September 2024, the item is unchanged to 31 March 2024 at TCHF 63.

### Distribution from capital reserves

The Annual General Meeting of Züblin Immobilien Holding AG on 27 June 2024 approved a tax free distribution of CHF 1.00 per registered share from statutory capital contribution reserves. This corresponds to a total amount of TCHF 3 316.

On 3 July 2024, a payment of TCHF 1 934 was made in favor of the shareholders. The distribution attributable to Lamesa Holding SA was carried as a liability in the balance sheet item «liabilities to participants», as has been the case since 2018 (see [note 4.5](#)).

## 4.3 Future contractual maturities

Based on the financial liabilities as of 30 September 2024 the following future contractual payment obligations exist (undiscounted amounts):

in CHF thousands	Carrying value	< 1 year		1 to 3 years		3 to 5 years		> 5 years	
		interest	amortisation	interest	amortisation	interest	amortisation	interest	amortisation
<b>As of 30.9.2024</b>

<b>Total financial liabilities as of 31.3.2024</b>	<b>72 643</b>	<b>1 446</b>	<b>9 714</b>	<b>2 892</b>	<b>0</b>	<b>2 892</b>	<b>0</b>	<b>4</b>	<b>63 000</b>

<sup>1</sup> The other short-term liabilities of TCHF 2'753 (previous year TCHF 2'417) recognized in the balance sheet include accrued liabilities of TCHF 977 (previous year TCHF 1'136).

Trade accounts payable and the other short-term liabilities are incurred in the course of the Group's operating activities and are covered by the short-term assets.

## 4.4 Mortgages

In CHF thousands	30.9.2024	31.3.2024
<b>Interest term structure</b>		
1 to 12 months	63 000	63 000
1 to 3 years	0	0
3 to 5 years	0	0
More than 5 years	0	0
<b>Total interest bearing debts</b>	<b>63 000</b>	<b>63 000</b>
<b>Average effective interest rate</b>	<b>1.82%</b>	<b>2.47%</b>
<b>Current interest rate</b>	<b>1.81%</b>	<b>2.27%</b>
<b>Contractual maturity dates of mortgages</b>		
1 to 12 months	0	0
1 to 3 years	0	0
3 to 5 years	0	0
More than 5 years	63 000	63 000
<b>Total</b>	<b>63 000</b>	<b>63 000</b>
<b>Average duration</b>	<b>4.5</b>	<b>5.5</b>
<b>Fair value of mortgages</b>		
Variable rate mortgages	63 000	63 000
<b>Total</b>	<b>63 000</b>	<b>63 000</b>

As at 30 September 2024, the Züblin Group's real estate portfolio is financed by a variable-rate loan. The amounts shown as mortgages in the balance sheet include closing fees of TCHF 64 (31.03.2024: TCHF 71). These closing fees are also included in the average effective interest rate.

The mortgage includes financial covenants which specify, among other things, adherence to certain financial indicators (loan-to-value ratio and equity ratio). The financial covenants are summarized in the table below:

Loan to Value (LTV)  $\leq 60\%$

Equity ratio  $\geq 10\%$

Züblin monitors compliance with these covenants on a quarterly basis. The breach of a covenant may have a variety of consequences and can result among other consequences in a higher interest rate or a (partial) repayment of the loan. If the LTV rises above 60%, the company has the opportunity to restore compliance with this financial covenant. The mortgage agreement also contains a «change of control» clause which stipulates the repayment of the entire loan if Züblin Immobilien Holding AG holds less than 50.1% of the voting rights or shares in the borrowing subsidiary or Lamesa Holding SA exercises direct or indirect control over more than 41.65% of the voting rights or shares in Züblin Immobilien Holding AG. A delisting of Züblin Immobilien Holding AG would also lead to an immediate repayment of outstanding borrowing.

As of balance sheet date, the Company was in compliance with all of its covenants.

Value of investment properties pledged as security for mortgages:

In CHF thousands	30.9.2024	31.3.2024
Book value of assets pledged (investment properties)	208 130	207 520
Credit drawn	63 000	63 000

Insurance policies for investment properties have been pledged as security over and above the mortgage lines.

Züblin currently finances itself entirely through mortgages. The balance sheet value as at 30 September 2024 is TCHF 62 936 (31.03.2024: TCHF 62 929). During the first half year no repayments and no additional borrowings were made, only non-cash changes occurred in the context of the compounding and discounting (+TCHF 7).

## 4.5 Related parties

### Transactions with related parties and significant shareholders

#### *Unpaid Dividend to shareholder*

As of 30 September 2024 Züblin Group has open payables to Lamesa Holding SA resulting from unpaid dividends in the amount of TCHF 9 673 (31.03.2024 TCHF 8 291). Further information is disclosed in [note 4.2](#). The liability does not bear interest.

There were no other transactions with related parties or significant shareholders in the first half of 2024/25. In addition, we refer to the Annual Report as at 31 March 2024.

# 5. SIGNIFICANT TRANSACTIONS AND EVENTS

---

## 5.1 Events after the balance sheet date

No significant events have taken place since the balance sheet date.

# EPRA PERFORMANCE MEASURES

The EPRA (European Public Real Estate Association) has developed Best Practice Recommendations for Reporting, Accounting and Corporate Governance in the listed real estate sector in recent years. The aim is to ensure consistency and transparency throughout the real estate sector. Züblin is a member of EPRA. In addition to the EPRA Performance Measures, Züblin is also disclosing a number of other company-specific figures.

## Property Valuation Report Jones Lang LaSalle (JLL)

### 1 Instruction

On behalf of the management of Züblin Immobilien Holding AG, the Swiss subsidiary of Jones Lang LaSalle (“JLL”) has valued all investment properties of Züblin Immobilien AG in Switzerland for accounting purposes as of 30 September 2024.

### 2 Valuation Standards

The valuers hereby confirm that the valuations have been performed in accordance with national and international standards and guidelines as set out in the International Valuation Standards (IVS) and the standards of the Royal Institution of Chartered Surveyors (RICS / Red Book).

### 3 Accounting Standards

The market values determined for the investment properties represent Fair Value as defined in the International Financial Reporting Standards (IFRS) based on revised IAS 40 (Investment Property) and IFRS 13 (Fair Value Measurement).

### 4 Definition of „Fair Value“

The Fair Value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

An exit price is the selling price as stated in the purchase contract on which the parties have agreed.

The Fair Value valuation assumes that the hypothetical transaction for the asset being valued takes place on the market with the greatest volume and the largest business activity (principal market), as well as transactions of sufficient frequency and volume occur so that sufficient pricing information is available for the market (active market). If such a market cannot be identified, a market for the asset is assumed that maximizes the selling price.

### 5 Realisation of „Fair Value“

The Fair Value is determined based on the best possible use of a property (highest and best use). The best use is the use that maximizes the property’s value. This assumption of use must be technically / physically

[jll.ch](http://jll.ch)

possible, legally permissible, and financially feasible. As a maximization of utility is assumed in the determination of Fair Value, the best use may differ from the actual or planned use. Future capital expenditures that will improve or increase the value of a property are considered appropriately in the Fair Value Measurement.

The application of the highest and best use approach is based on the principle of materiality of the potential difference in value in relation to the value of the individual property and of the total real estate assets, as well as in relation to the possible absolute value difference. Potential increased real estate values that lie within the usual valuation tolerance of a single valuation are insignificant and neglected as a result.

The determination of Fair Value is dependent on the quality and reliability of measurement parameters, with decreasing quality and reliability: Level 1 market price, level 2 modified market price and level 3 model-based valuation. For a Fair Value appraisal of a property, different levels for different application parameters can be applied simultaneously. The entire valuation is classified according to the lowest level of the Fair Value hierarchy, which contains the main valuation parameters.

The valuation of investment properties of the Züblin Immobilien AG are performed with a model-based valuation in accordance with level 3, based on input parameters not directly observable on the market. Based on this level, adapted level 2 input parameters are used (e.g., market rents, operational and maintenance costs, discount / capitalization rates). Not observable inputs are only used when relevant observable inputs are not available.

## 6 Valuation Method

Valuation procedures have been applied that are appropriate in the particular circumstances and for which sufficient data are available to determine the Fair Values, in which the use of relevant observable inputs are maximized and those unobservable inputs are minimized.

The market valuations of properties that are completely or partially vacant are calculated on the assumption that a re-letting takes a certain period. Loss of rent, rent-free periods and other incentives for new tenants that meet the market standard are considered in the valuation.

To determine the market value across all countries an income-based approach was applied. In this case, the potential yield of a property is determined based on future revenues and expenditures. The resulting cash flows correspond to the current and projected cash flows after deducting all non-recoverable costs to the tenant (before taxes and borrowing costs). The interest rate used is based on the rate of long-term, risk-free investments and a specific risk premium, which reflects the current situation on the transaction market, the local real estate market, and the characteristics of the property.

The discounted cash flow method (DCF method) was used where the annual cash flows are discounted to the valuation date. At the end of the period in which the cash flows are projected in detail, a residual value (exit value) is determined on basis of a perpetual annuity of the exit cash flow. The market value is calculated as the sum of the discounted net cash flows. The market value is the sum of the net cash flows discounted to the valuation date beyond the detailed analysis period and the discounted residual value.

## 7 Basis of the Valuations

All properties are known to JLL due to the inspections carried out and the documents provided. JLL conducted a detailed analysis in terms of quality and risks (attractiveness and lettability of the rented premises, construction and condition, micro and macro location). The properties are visited by JLL at acquisition and every three years or upon completion of larger refurbishments thereafter.

## 8 Results

A total of 6 properties were valued as of 30 September 2024. The Fair Value of the properties according to IAS 40 and IFRS 13 is estimated as at the valuation date as follows:

CHF 225,860,000 (Gross Fair Value)

Gross Fair Value: The Fair Value according to paragraph 25 IFRS 13 is not corrected by the transaction costs incurred by the purchaser. This corresponds to the Swiss valuation practice.

## 9 Independency and Purpose

JLL confirms that the valuations have been created independently and neutrally and are intended only for the aforementioned purpose. JLL assumes no liability to third parties.

## Appendix – Valuation Assumptions

The following general assumptions apply for the valuations of the properties.

- The valuations are based on rent rolls of the Züblin Immobilien AG as of 1. October 2024.
- In the valuation models, unless otherwise specified, an inflation rate of 1.25% is assumed.
- Regarding operating expenses, it is assumed that ancillary expenses are treated separately and thus tenant related costs are borne by the tenants.
- The discount rate and capitalization rate are based on a risk-adjusted interest rate. The respective rate is determined individually for each investment property by use of benchmark data from arm's-length transactions. In case there are not sufficient comparable transactions, the discount and capitalization rates are determined considering the current market environment, the macro and micro location, type of use, cash flow risk and any other specific factors.
- As of 30 September 2024, the following rates have been applied:
  - The discount rates are between 3.85% and 5.80%, amounting to a capital-weighted discount rate of 4.35%.
  - The capitalizations rates are between 2.60% and 4.55%, amounting to a capital-weighted capitalization rate of 3.10%.

# DEFINITION OF TERMS

---

## Income statement

**EBITDA:** Earnings before interest and taxes (EBIT) excluding net changes in market value of investment properties, result from the sale of investment properties and depreciation.

**EPRA Earnings:** Earnings excluding net changes in market value of investment properties, result from the sale of investment properties, changes in fair value of derivative financial instruments and non-controlling interests.

## Balance sheet

**Market value of investment properties:** The market value of investment properties as assessed by independent external real estate appraisers. In Germany after deduction of the transaction costs payable on a sale.

## Key figures per share

**Number of outstanding shares:** Number of shares of Züblin Immobilien Holding AG in issue less treasury shares. In the case of figures relating to the balance sheet the number of treasury shares at the balance sheet date is deducted, while in the case of the income statement, the average number of treasury shares is used.

**EPRA Earnings:** EPRA Earnings divided by average number of outstanding shares.

**EPRA Net Reinstatement Value (NRV):** Assumes that entities never sell assets and aims to represent the value required to rebuild the entity.

**EPRA Net Tangible Assets (NTA):** Assumes that entities buy and sell assets, thereby crystallising certain levels of unavoidable deferred tax.

**EPRA Net Disposal Value (NDV):** Represents the shareholders' value under a disposal scenario, where deferred tax, financial instruments and certain other adjustments are calculated to the full extent of their liability, net of any resulting tax.

## Portfolio

**Annualized rental income:** Annual rent based on existing rental agreements as of reporting date.

**Annualized gross rental income:** Vacant units valued at market rent on reporting date plus annualized rental income.

**Estimated market rental value (ERV):** All rentable space of the whole portfolio calculated at market rent.

**Investment properties available for lease:** Investment properties excluding redevelopment projects and investment properties held for sale.

### Analysis of the various yields on rental income

**Gross Initial Yield:** Ratio of annual rental income of investment properties available for lease to the investment properties available for lease as of the balance sheet date.

**EPRA Net Initial Yield:** Ratio of annual rental income excluding real estate expenses and maintenance and repairs of investment properties available for lease to the market value of the investment properties available for lease inclusive of the estimated sale transaction costs as of the balance sheet date.

### Analysis of the vacancy levels

**Estimated annual rental income of vacant space:** Vacant space in m<sup>2</sup> calculated at market rent.

**EPRA Vacancy rate:** Estimated Market Rental Value (ERV) of vacant space divided by ERV of the whole portfolio.

**Vacancy rate monetary:** Estimated market rental value of vacant space divided by annualized gross rental income.

### Sustainability

**Energy reference area (EBF):** The sum of all floor areas above and below ground that are located within the thermal building envelope and for which heating or air conditioning is required.
